

# AECO BANANA PLUG

---

## Assembly

1. We recommend to peel off the cable jacket and appear conductor part about 6mm.

2. This product is suitable for cable OD which is less than 6.3mm.  
Please remove the sleeve (141) if the cable OD is more than 4.3mm.  
OD = Outer Diameter

3. Please put the cable through the shell (131)

### 4.1. For solder type:

Support the cable conductor diameter under 5.0mm or over AWG5, please remove the ring [121] and the screws [211 / 212] then solder on the half cross cutting section

### 4.2. For screw type:

Support the cable conductor diameter under 3.5mm or over AWG8, please put the ring [121] on banana body, then put the cable conductor into the ring, and use the screws [211 / 212] tighten the ring and conductor.

5. Please lock the shell on body set [111].

6. Please fix the cable and shell through screw [222 / 221].
