

# AECO THE SMART CONNECTOR

***Who doesn't want to use smart solutions to terminate a cable?  
Now there is a manufacturer who has creatively developed and  
created connectors for most high end audio applications.***

The "AECO" brand was founded in 2010 by *Aec Connectors Co. Ltd.*  
To be in line with market demand, "AECO" was created by superb  
technology base and the principle of High-End quality.  
All products are developed, designed and manufactured in Taiwan.

The products are designed in a very smart way, which makes them a joy  
to use.

They have great flexibility in their design and have many clever technical  
solutions. Very high quality for daily use (24/7).

The conductor is made from high-purity copper with plating.

- The design and construction are innovative
- Precision manufacturing
- Extremely high quality
- Reference level for demanding users
- High conductivity (high copper content)
- Fits most cables including high OD (Outer Diameter) value
- Good price/performance
