High End Performance FI-28(G) IEC Connector / FI-E38(G) SCHUKO Connector

Features

- 24k Gold-plated conductors α (Alpha) pure-copper
- Earth (Ground) Jumper System (US Patent No.: 6,669,491)
- Nylon/fiberglass body incorporating carbon particles that absorb vibration and resonance
- Specified for cable diameters from 6.6mm to 17.5mm
- Dimensions: FI-28(G)---39.6mm diameter x 76.2mm overall length
FI-E38(G)---39.6mm diameter x 90.5mm overall length
- Metal cable clamp improves grip and reduces mechanically and electrically induced distortion
- Rating: FI-28(G)---10A 250V /15A 125V AC // FI-E38(G)--- 16A 250V AC

Specially Engineered Cable Clamp and Wire Clamp

Contact Area Increased by: 17.142% (Theory value)

What the Critics Say about Furutech Cables

"The Evolutions, which cost less than half what the Reference IIs do, are by any rational standard extremely high-performance cables, though the References do a better job with low-level details very low-frequency bass, and background noise. ... If, like me, you appreciate taking many sonic steps forward and no steps backward, you'll want to give these components a try."

-- Chris Martens, August 07 *the Absolute Sound*

"After many hours of listening, my appreciation for the Furutech References grew because of how non-fatiguing they can be while still revealing a very high level of detail. The extension of both treble and bass is excellent but it is the wholeness and balance of the sound that makes the Furutech Reference stand out."

--Jay Fisher, 6moons.com

"One last comment has to go to the finish of the connectors ... Tolerances are spot on, the stuff goes in smoothly, locks and unlocks without any undue play ... There's something luxurious and silken about the Furutech connectors. Like fine Swiss watches. This stuff also routes and drapes easily. ... Since it does perform to a very high standard, getting the tactile satisfaction and pride of ownership bits thrown into the bargain is worth mentioning."

-- Srajan Ebaen, 6moons.com
