

Standard EU-plug (Schuko) with C13 female cord suitable for most devices (1 set)

NETZO POWER CONNECTORS PRESTIGE with pure copper plus gold plating

Robust ABS shell - Really good audiophile product

These connectors have been designed to offer a high quality and reliable standard for your audio installation.

Each material is selected to obtain a homogeneous contact, which reduces vibrations and improves sound quality.

The product is ferromagnetically neutral (counteracts passive intermodulation).

The contacts are made of pure copper 99.9% with 24K gold plating to ensure the best conductivity.

In addition, the intake bracket accepts large conductor types.

Description:

Contains: Schuko plug: model C15-10/250 and C13 plug: model EU-16/250

Material: ABS shell, black

Fastening: stainless steel screws

Contact pin: 99.9% pure copper

Contact pin surface treatment: 24K gold plated (0.05µm)

CE, specification: Schuko plug – 16A/250V and C13 plug – 10A/250V

Cable clamp: plastic with two screws

Cable diameter: 6.5mm – 19.0mm (Max AWG10)

Max diameter cable wire: max 5 mm (screw termination)

Outer dimensions:

Schuko plug - 84 mm overall length, 65 mm case only, diameter 39 mm

C13 plug - 73mm overall length, 55mm case only, diameter 39mm

There is *no brand label* on the parts (advantage for OEM/ODM manufacturing)

Manufactured in China for Lukase AB

HS-code/Customs tariff number: 85366990

Packaging:

- Customer/DIY packaging, 1 set 185 gram P/N: NC-S-C13-PC

- OEM packaging, 5 sets 900 gram P/N: NC-S-C13-PC-5
