

Product Name: GENESIS-7 Copper Graphene Signal Cable
Part Number: G7.50M (50m bulk), G7.1M (1m retail)

Product Description

- CuGr Copper Graphene Infused Signal Cable
- Single Crystal OCC Copper Solid Conductor Cores
- Higher Conductivity (+40%) than Copper Conductors
- Three Individually Isolated Cores Signal Paths
- Suitable for Balanced Signal Applications
- AirInside© Geometry Cable Construction Eliminates Distortion
- Multilayer Shielding Minimizes Interference and Lower Noise Floor
- Smooth and Clean High Frequencies Without Harshness
- Expansive Musicality with Excellent Imaging

Technical Specifications

AirInside© Geometry Construction Details

- Three Signal Paths with Air-Geometry PP/Mylar Shielded OCC Graphene Cores
Each Individually Insulated Solid OCC Graphene Conductors Core Contains:
 - 3 X 0.50mm Bare
 - 4 X PP Rod
- Drain Wire Cluster with Solid OCC Conductor of 3 X 0.50mm Bare

Insulation

Signal Cores: Polypropylene/Mylar Multilayer Shielding
Cotton Filler
Blue PVC/Mylar Flexible Outer Jacket, Nylon Braiding

Electrical Characteristics

Each Core:
Inductance($\mu\text{H}/\text{m}$) 1.4
Resistance (Ω/m) 0.03
Capacitance(pF/m) 184.0

Physical Characteristics

Cable Overall Diameter: 9.30mm
Bulk Cable Weight: 5.55Kg / 50m roll

PVC Jacket has RAMM Audio Genesis-7 imprint
